THIS IS UNEVALUATED INFORMATION

1. The Csépel Paper Mill is located on the eastern part of Csépel Island, very close to the Csépel Pest Erzsébet bridge. The plant manufactures all kinds of paper except tissue and cigarette paper. In addition cardboard and also grooved pasteboard is produced in the plant. Paper and cardboard made out of cellulose, which is produced within the plant. A few new special kinds of paper are made out of rags. In 1955 experiments were carried on to produce cellulose out of straw.
2. The plant is under the management of Sándor Thali. The plant employs about three thousand workers who work in three shifts. In 1952 the plant's equipment was modernized to some extent. A few new rolling presses were imported from Poland.
3. Small quantities of wood are brought to the paper mill on the Danube.

Legend

- 1) Open storing place for pulpwood
- 2) Basin for soaking wood
- 3) Barking of wood
- 4) Cutting and grinding section
- 5) Large building, 40 x 50 meters with various sections reprocessing pulpwood into cellulose. In the upper part of the building (about 12 meters high) production facilities for grooved pasteboard are installed
- 6)& Two halls, 70 meters long for fabrication of paper, both buildings 15-20 meters wide. In the eastern wing of building No. 6 which is one floor higher than the flat hall a few offices are accommodated.
- 8) Boilerhouse
- 9) Transformer
- 10) Electric workshop
- 11) Mechanical workshop with a small foundry
- 12) Two containers for acid used in production, each 30 meters high
- 13) Oxygen storage
- 14) Newly constructed building, not yet in use, planned to house enlarged installations for cardboard manufacturing
- 15) Magazine for rags
- 16) & Magazine for produced paper
- 17)
- 18) Management
- 19) Offices
- 20) Laboratories; according to rumors experiments are carried on in this laboratory to use hydro-cyanic acid in the paper production
- 21) Guards' House and Fire Guard
- 22) Weigh-bridge
- 23) Main entrance and checking point
